SIR:

Applicant herewith requests that a corrected Filing Receipt be issued  
setting forth the correct number of claims and independent claims, the correct  
title of the invention and the priority of the provisional Application No. 60/076,472,  
which was claimed under the provisions of 35 U.S.C. §119 (e).

In the Filing Receipt as mailed to the undersigned, the Patent and Trademark Office appears to have incorrectly indicated the number of the claims as "26", instead of --27--, the independent claims as "7" instead of --8-- and the title of the invention as "METHOD FOR INJECTION MOULDING, INJECTION MOULD, INJECTION MOULDING DEVICE AND METHOD FOR FILLING A MAIN EXTRUDER FROM A SECONDARY EXTRUDER" instead of --PROCESS FOR INJECTION MOLDING, INJECTION MOLD AND INJECTION MOLDING DEVICE, AS WELL AS PROCESS FOR FILLING A MAIN EXTRUDER FROM A SECONDARY EXTRUDER.—

Furthermore, the Patent and Trademark Office failed to mention the priority of the provisional Application No. 60/076,472, filed 03/02/1998, which was claimed under the provisions of 35 U.S.C. §119 (e).

Attached is a copy of the filing receipt showing the requested corrections. Issuance of a corrected filing receipt is requested.

Reference to the application papers will clearly show the correct number of claims and independent claims, the correct title of the invention and the priority of the provisional application.

Since these errors for which correction is sought was caused by the Patent and Trademark Office, no fee is due (35 U.S.C. 254).

**LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15**

**GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 36 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

**NOT GRANTED**

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

**PLEASE NOTE the following information about the Filing Receipt:**

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 600 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."

Any corrections that may need to be done to your Filing Receipt should be directed to:
